Industrial space survey

Southwest Las Vegas

Prepared November 3, 2026 for an example tenant. Listings, buildings, brokers and figures are fictional.

The requirement

Use	Warehouse and light assembly
Size	8,000 to 12,000 SF in one space
Submarket	Southwest, required
Loading	At least 1 dock-high and 1 grade-level door
Available	By March 1, 2027
Budget	**$19,500 a month**, estimated base rent + stated expenses
Lease	Direct or sublease

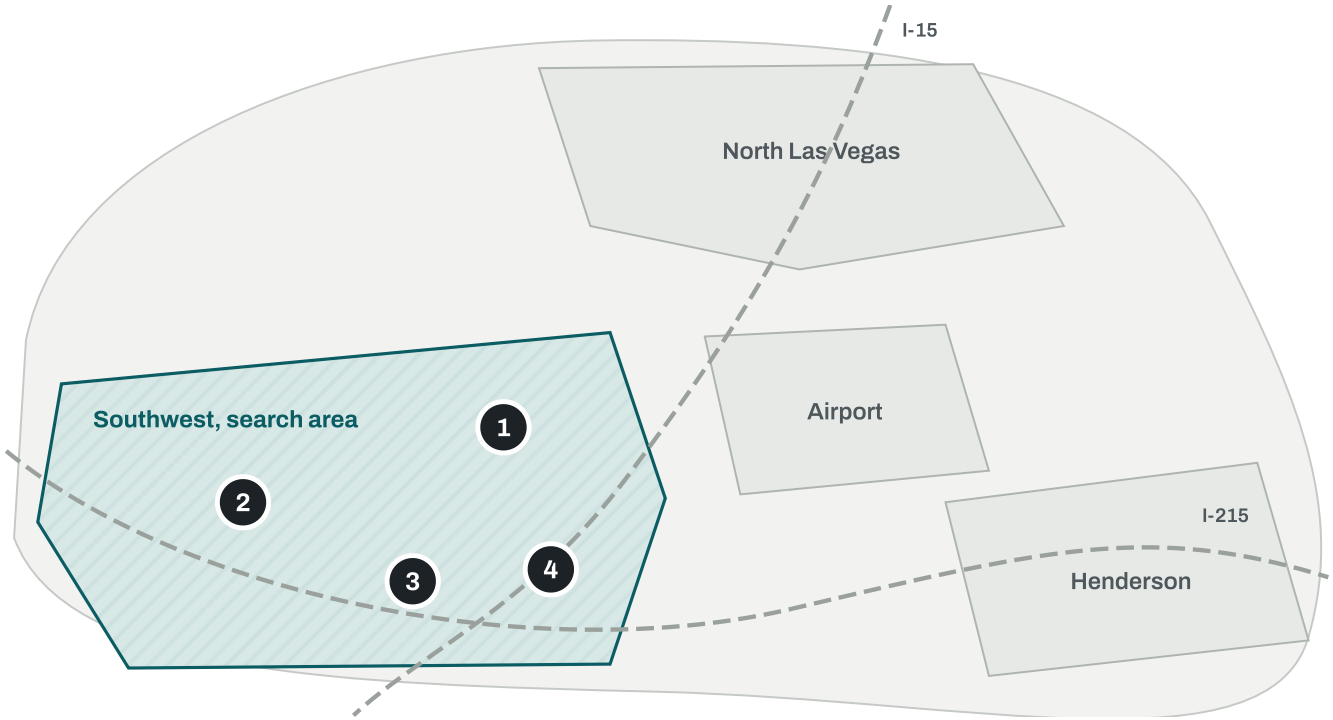

What the file produced

4 spaces meet every requirement: pages 3 to 6

3 need confirmation before they can be ranked: page 2

7 excluded, each with its reason: page 2

16 source rows became 14 distinct offers: 1 exact repeat counted once, 1 offer with conflicting rows kept for review.

Schematic of submarkets. Numbered pins match the ranking on page 2; pin positions are illustrative, so no distance or drive time should be read from them.

Spaces meeting every requirement, ranked by estimated monthly cost

Costs are base rent plus the expenses stated in the listing, per month, then annualized at the initial rate. Not included: utilities, improvements, escalations, anything the listing does not state.
